

DAY 8 INTRODUCTION

Today, you are telling the world about the magnificence, the awesomeness, which is your new site. You are going to use a cool technique called social bookmarking. It works wonder. It is the technique Thirty Day Challengers previewed and premiered last year and it still works as well today as it did then.

After today, you should hopefully start appearing in search engines over the course of the next 24-48 hours or so. You are going to start getting traffic too. What's cool is that because you've setup your analytics yesterday, you are going to be able to watch this.

There are all sorts of cool ways to watch your analytics as well. With traffic, you can start looking at conversion and what you can do with your site.

These next few days are going to be tough. Not from the technology perspective. the hardest stuff has been done. Everything from now on is gravy. It is a matter of doing it. You can do it no problem.

From the commitment, to stuff happens in life, get attacked by birds, killer gates come and slam you in the testicles, all these things can happen on a daily basis. It is important, in all seriousness, for you to buckle down this week and really take the step by step. Don't panic or worry if you are in the wrong niche because you have plenty of time.

For you to be a winner, you only need to make a dollar.

But what you're doing is building a foundation of a solid online business. Rest assured that you are not wasting any effort at all.
